

## WEEKS ASKS DELAY FOR CURRENCY BILL

Senator Offers Resolution to Make Measure Business For December 2.

Senator Weeks of Massachusetts, a member of the Banking and Currency Committee, introduced in the Senate today a resolution directing the committee to bring in a currency bill by December 2, and instructing the chairman to move at that time to make the bill the unfinished business.

This resolution is expected to bring squarely to a head the question whether there will be currency legislation in the special session.

The resolution went over until tomorrow and Senator Weeks will speak upon it at that time. It is expected the resolution will be referred to the Banking and Currency Committee and that the vote there will be about evenly divided. Should two Democrats support it, it would have seven of the thirteen votes in the committee.

Administration Against It. The Administration influence will be thrown against the resolution and every effort will be made by the President to beat it.

Senator Weeks will say in his speech and said in talking of his resolution today that in the first place no emergency action such as required immediate legislation which existed in an equal degree most of the time for the last two years. He said the Government's cash statement, the circulation statement and the consolidated bank statement showed this. He takes the position that the bankers before the banking and currency committee are unanimously of the opinion no emergency exists at this time.

The Aldrich-Vreeland bill is still in force and will remain in force until next July, said Senator Weeks. If currency legislation is taken up by the Senate at the outset of the regular session it can easily be disposed of by the time the Aldrich-Vreeland act expires. Senators are worn out and not in condition to consider the subject at this time. Moreover, the Senate is always idle most of December, and that will be the worst time to debate this question. After the Senate has had a rest the matter can be handled much better than now.

Cites Chicago Objection. The opinions of bankers at the Chicago conference indicated that radical changes were needed in the bill. Manifestly, there is a wide difference of opinion in the committee as to what should be done, and if we go ahead with the bill now it will be possible to get a measure out of committee for a long time and probably not for sixty days.

Probabilities are that a sharp debate will be stirred up by the Weeks resolution in the Senate tomorrow.

In case the Senate Democratic leaders believe they have the votes, they will doubtless move to table it. Otherwise they will let the resolution lie on the floor and will play for time in the hope of rounding up enough votes to kill it.

Hearings on the Administration currency bill continued before the Banking and Currency Committee today.

\$2.00 To Harper's Ferry and Martinsburg, \$1.50 Berkeley Springs and \$2.00 Cumberland, Sunday, Sept. 7, Baltimore and Ohio from Union Station, Washington, D. C. 8:50 A. M. Returning same day.—Adv.

## And Except For That She Was a Dutiful, Loving Kind of Wife

BOSTON, Mass., Sept. 4.—Edward A. Blakeney holds the honor of being the first man in Massachusetts to ask alimony in connection with his libel for divorce. His wife, he alleges, threw a water pitcher and a carving knife at him, attacked him with a carving knife, made him sleep in the barn, struck him with a broom handle, twisted his arm and wrist, scorched his clothing with a flat iron, threw a saucer at him, tried to poison him, accused him of setting the house on fire, drove their son Charles away from home, refused to prepare supper, threw a steak and a bottle of antiphotogenic at him and told neighbors he had tried to poison her, sold his wagon and kept the money, threatened him with an ax, and threw a rolling pin and pot of potatoes at him.

## City News Notes

An automobile belonging to Lenox R. Lohr, which was stolen last night from in front of Chase's Theater, was found abandoned today near Laurel, Md. The machine had not been damaged.

Della Fisher filed suit for \$2,500 damages against the Washington Railway and Electric Company in the District Supreme Court today. She alleges that she was injured when a street car collided with an automobile truck on Pennsylvania avenue on May 2.

Mrs. Mary Edwards filed a suit for an absolute divorce against William H. Edwards, Jr., in the District Supreme Court. She says that her husband, who is a Government engineer, is now in the Philippines and that the misconduct alleged to have been committed occurred on Carabao Island.

William Francis Bernard, of Chicago, will address an open-air meeting at Tenth street and Pennsylvania avenue at 8 o'clock tonight, under the auspices of the Socialist party. His subject will be "Woman Suffrage and Socialism."

Police today failed to get any trace of the automobile of Lenox R. Lohr, of 29 Eleventh street southeast, which was stolen last night from the rear of Chase's Theater. The machine is an Overland touring car.

Of eighty-one arrests for cruelty to animals during August, eighty convictions were obtained, according to the report just issued by the Washington Humane Society. The report shows that 1,130 animals were examined. The small number of complaints for the month is due, officials of the society say, to the fact that people are becoming educated to better treatment of horses.

## SENATORS CRITICS OF DANIELS' ACTION

Believed Four Young Men Who Were "Flunked" Should Get Commissions.

The Senate Committee on Naval Affairs is strongly of the opinion that the four young men who took the examination for commissions in the Marine Corps but were "flunked" by Secretary Daniels after they had passed the board's examination, should receive appointments and get their commissions.

Much opposition exists in committee to the course of Secretary Daniels in turning down the four young men who passed the examination under the rules and then turning around and giving commissions to three young men who did not pass under the rules. The fact of the three favored young men being from North Carolina, the home State of the Secretary, has caused a strong undercurrent of talk of favoritism.

Solution Suggested. As a way out of the difficulty, it was suggested in well-informed circles in the committee today that the four young men who had been "flunked" should be commissioned and also the three who were favored by Secretary Daniels. This would straighten out the controversy.

The number of vacancies to be filled at the next examination could then be reduced to correspond with the additional appointments. Moreover, Senators would expect Secretary Daniels to prescribe definite rules for the next examination and stick to them, eliminating the requirements for aptitude and efficiency in the revised rules if he saw fit, but not changing the rules after an examination had been begun.

Many of the Senators on the committee think this would be a fair way out of the tangle and would be just to all concerned.

Aroused At Action. The fact that the candidates took the examination under one set of rules and then the Secretary shifted the rules to suit his own purposes before the commissions were issued strikes at least some of the committee as unfair.

A number of Senators outside the committee have been appealed to by the young men to support their action.

The committee took no action last night after hearing Secretary Daniels. Senator Tillman, chairman, has not yet called another meeting, and none may be held before next week. Meantime, all the recent appointments for commissions in the marine corps are held up in committee.

Silk Hat Halts Train. MADRID, Sept. 4.—Count Romanones, Spanish premier, held up an express train for forty-five minutes while he sent a messenger for his silk hat, which he had forgotten.

## Legislative News

Diplomats To Be Named. President Wilson will send to the Senate this week the nominations of Thomas H. Birch, of Burlington, N. J., as minister to Portugal, and Charles J. Vopicka, as minister to Roumania, Serbia, and Bulgaria. The governments concerned have both stated that the men will be acceptable.

Mine Owners Criticized. Criticism of the practice of Illinois mine owners of "making the powder do the work" is made in a report of the United States Geological Survey on coal operations in that State last year. "The large amount of coal in Illinois 'powder-mined' is discreditable and inexcusable," says the survey.

Kansas Uses More Coal. An evidence of the diminished supply of fuel oil and natural gas in Kansas is given by a report of the United States Geological Survey showing the increased tonnage of coal in that State during the year 1912. The necessity of supplying the steam trade and steam users with coal forced an increased production of the number of tons of coal mined. Increased 800,000 tons at an added value of nearly \$2,000,000.

Quarantine Amended. Acting Secretary of Agriculture has amended the quarantine against the importation of cotton seed and cotton seed hulls, so as to permit the entry of this seed from the States of Nuevo Leon, and Tamaulipas, Mexico, for manufacturing purposes only, when the importer makes proper permit and gives sufficient bond.

Attends Celebrations At Home. Edward H. McGraw, private secretary to Secretary of Labor Wilson, has gone to York, Pa., to attend the third annual convention of the Pennsylvania State Federation of Democratic Clubs. From York he will go to Old Hemsport to be present at the Wild Home Week celebration.

Saulsbury Distributes Peaches. Senator Saulsbury of Delaware today sent a large basket of fine Delaware peaches to members of the Senate press gallery. He also has distributed samples of the product of the peach orchards of his State to Senatorial friends.

## Dancing To Be Resumed At Rifles' Armory

The regular assembly dances held at National Rifles' Armory every Thursday and Saturday evening for past years under the direction of the Davison, will reopen for the coming season Saturday evening, September 6.

These assemblies will be held every Thursday and Saturday evening during the coming season. Special features for each assembly will be continuous dancing 8:30 to 12. Two orchestras. Moonlight dances, with singing chorus. The new dances will be in evidence.

## SEEK BRIDGE FOR EASTERN BRANCH

Randle Highlands Citizens Want Appropriation From Next Session of Congress For Plans For Structure to Replace Present One on Pennsylvania Avenue.

WASHINGTON TIMES BUREAU. ANACOSTIA, D. C., SEPT. 4. The proposition of replacing the present Pennsylvania avenue bridge which crosses the Eastern branch at Randle Highlands, is again being considered, and the citizens there hope to get an appropriation from the next session of Congress to have a survey and preliminary plans made for a bridge.

The question was first discussed several months ago, when the War Department asked for an appropriation to place a draw in this bridge, at a cost of \$50,000. At that time bitter opposition was made to this project because it was considered too much money to expend for a temporary structure. The bridge was then started to replace the present structure with a modern, concrete bridge. The present bridge has been constructed for a long time. It is very narrow, and will not permit the placing of street car tracks, with a roadway for teams.

The Fairview Athletic Baseball Club defeated the Congress Heights team yesterday afternoon on the bridge diamond, 4 to 2. The Congress Heights club in personal battle in the Potomac League up to yesterday, but by their defeat the team of the Government Hospital for the Insane moves into first place.

The meeting of the local assembly of the Brotherhood of St. Andrew of the diocese of Washington, which was announced to be held in the parish hall of Immaculate Episcopal Church, September 22, has been changed to September 18.

On September 17 a tournament and ball will be conducted at St. John's Church, Broad Creek, Md. An entrance fee of \$2 will be charged each knight. Officers of the day will be: Chief marshal, Henry Kirby; sides, George Swift and Milton Brooke; heralds, Owen Thorne and Cleveland Kirby; orator of the day, R. P. E. Chav; orator of the evening, George B. Merrick; committee on knights, Alfred Thorne, Edgar Holmes, James A. Howell, E. J. Swann, G. Owens, Jesse Cade, Cornelius Thorne and George H. Edelen; committee on arms, Albert Taylor, Richard Edelen, Robert Stead, Frank Swyder, William Lathan, Jackson Kirby, and Harvey Thorne.

Randle Highlands citizens want the custody of L'Enfant Circle, at the corner of Minnesota and Pennsylvania avenues, given to the office of Public Buildings and Grounds. This property is now under the control of the local Government, but no funds are available to improve it, so it might be used for a public park. The association also is

## 500 Fall Tailored Suits—Samples

Bought From 5 of 5th Avenue's Best Suit Makers

Practically Exclusive Styles—None Worth Less Than \$30, Others Worth as High as \$44.75—Offered Tomorrow and Saturday at—

**\$19.90**

As these are in the new Fall styles and made of materials, duplicates of which will probably be shown in our Fall Opening Display in much higher priced suits, this announcement seems almost incredible.

Here is the explanation:

In the first place, these are all sample garments; have been made by sample tailors who do only the highest class of work. In the second, the houses from which they were bought are among Fifth Avenue's most exclusive stores. When these stores have finished with these suits as samples they are sold to the larger retail houses throughout the country, and it has been our extraordinary good luck to secure FIVE SAMPLE LINES.

See Window Display. Suit Store—2d Floor.
